DETAILED ACTION

1. This Office Action is made in response to applicant's amendment filed on 2/17/2006. Claims 25-38 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 24-38 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a pixel circuitry for an electroluminescent display device with reset transistor. Independent claims 25, 26, 27, and 28 identify the uniquely distinct feature of a reset transistor that has either the source or drain electrically connected to a gate signal line, the other of the source and drain region electrically connected to the gate electrode of a driver transistor and the gate of the reset transistor connected to a reset signal line.

The closest prior art, Stewart et al. (USPN: 5952789) and Dawson et al. (USPN: 6229506) disclose pixel circuitry for electroluminescent display devices with a reset transistor, however, the reset transistor of Stewart et al. is electrically connected to a power line, rather than a gate signal line. Dawson et al. similarly teaches a reset transistor that has a source electrically connected to a power line rather than a gate signal line. The teachings of Stewart et al and Dawson et al, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571) 272-7903. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
